

Dear Mr. Roe,

Thank you so much for putting your time and effort into our reality fair! It really means a lot to me, as a student learning how to handle financial situations. The opportunity to go through will be something I will hold on to for a long time. Finance is a subject that is very important to me because I want to know and understand how I can stay out of debt. I found the fair interesting, as it is a real life simulator of what might be a day in an adult's life. I will definitely remember this experience and I appreciate everything you had done to make this all possible. Thank you so much!

Sincerely,

Hannah Arthur
